Postgraduate Research Enquiries

If you would like to become a PhD student under my supervision:

- Send me email, with your CV, and some indication of when you would like to start, and a brief description of the topic that you would like to research.

- Consider how you will fund your studies:
  - Australian Postgraduate Award? (for Australian students)
  - Capital Markets CRC?
  - NICTA?

- If you are Australian, then contact the Graduate School of Engineering about how to apply for enrolment.

- If you are not Australian, then contact the International Office about how to apply for enrolment.
